## **DETAILED ACTION**

### ***Response to Amendment***

1. This action is in response to the amendment filed 07/23/07. Claims 1, 21, 23-25, 39 and 40 have been amended; claims 19 and 22 have been canceled.

### ***Response to Arguments***

2. Applicant's arguments, see page 11, filed 07/23/07, with respect to the rejections of claim 39 under 35 USC 102(e) and claims 1-8, 11, 13-27, 29-36 and 39-41 under 35 USC 103(a) have been fully considered and are persuasive. The rejections have been withdrawn.

### ***Allowable Subject Matter***

3. Claims 1-18, 20-21, 23-36 and 39-41 are allowed.
4. The following is an examiner's statement of reasons for allowance.  
Independent claim 1 identifies the uniquely distinct feature: "encrypting the second decryption information with the encryption information corresponding to the first decryption information". Lee (4,484,027) does not disclose encrypting the second decryption information with the encryption information corresponding to the first decryption information. Although

distributing a new key encrypted using an old key is well known in the art, a modification to Lee to include such feature would render Lee's method and system unsatisfactory for its intended purpose "a legitimate subscriber must be capable of obtaining synchronization within a short period of time ... so that synchronization can be acquired rapidly in case of loss of sync due to power outages, rainstorms, changing of channels, etc." (col. 4, lines 41-56).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
